

UST Support

Refined Resources to Meet Your Nonprofit's Needs

Since 1983, UST has supported nonprofits with the latest HR resources and unemployment claims management tools to help keep more money within the nonprofit community. Because no nonprofit employer is alike, UST now offers a modified selection of its most popular cost-saving services alongside its traditional UST Trust solution—**catering to both tax-rated and direct reimbursing nonprofits.**

What is Included in UST Support?

The UST Support solution provides exclusive access to the following services:

Professional Claims Administration

CaseBuilder Online Claims Management

Professional Representation at Appeal Hearings

Live HR Hotline, Online Compliance Library and Training

Outplacement and Career Transition Services

Budget Guidance from Certified Actuaries

How Do I Determine Which Program is Best for Me?

UST encourages every eligible nonprofit to start their unemployment cost assessment by submitting a free Unemployment Cost Analysis at www.ChooseUST.org/request-a-savings-quote.

By evaluating your unemployment claims history, number of employees, and tax rate information (if not yet reimbursing), UST can help determine which of our programs would best meet your needs.

For the first time, you can access all of UST's industry leading unemployment claims and HR management tools for a flat, pre-determined fee based on your needs—allowing you to put more time and energy toward your mission-driven objectives.

What if my Nonprofit Organization is Tax-Rated?

UST has served direct reimbursing nonprofits for over thirty years. Now, UST Support offers a solution specifically designed to provide tax-rated organizations with valuable benefits to operate efficiently while saving money.

UST Support has several features designed to help tax-rated employers better manage their unemployment costs. A tool many organizations benefit from is rate forecasting—an aid used to help with budgeting and cash flow management. Additionally, our claims administrator's annual analysis can help you decide whether a voluntary contribution can be used to lower your unemployment tax rate—providing an annual savings for your organization. Regardless of which unemployment funding option is right for you, UST Support helps you save money and time for your organization.

Contact a UST Unemployment Cost Advisor at 888-249-4788 or info@chooseust.org to uncover the best-fit solution for your nonprofit today.

It is comforting to know that we can depend on UST to keep our best interests in mind."— Sunbeam Family Services, Inc.
